

**Michèle Martel, MSc., Agr**

Ms. Martel joined Medicago in 2000 as team leader for biomass production. She is responsible for greenhouse production of alfalfa expressing pharmaceutical proteins. She also sees that Medicago meets environmental standards for PMP production. Prior to Medicago, she worked as research assistant and was responsible for the realization of research field trials at the Plant science department at Laval University. She holds a B.Sc. in agronomic science and a M.Sc. in plant biology from Laval University.
