

Yuri Gleba, Ph.D., has 30 years of research and management experience in plant genetics and biotechnology. Dr. Gleba joined American Cyanamid Company, Princeton, NJ in 1992, where he developed research efforts in plant biotechnology and genomics and crop engineering, first as a group leader/manager, and, since 1997, as a Director of the Crop Engineering Department. Dr. Gleba left Cyanamid in, 1999, to co-found Icon Genetics, and is serving as its first CEO.
